Journal of Oncology Pharmacy Practice

Journal of Oncology Pharmacy Practice is a peer-reviewed journal dedicated to educating pharmacists about providing pharmaceutical care to cancer patients.

Publishing pertinent case reports and consensus guidelines that drive clinical practice, this practical journal also includes information on new products, new therapies and patient management, as well as reviews of the latest research.

The official publication of the International Society for Oncology Pharmacy Practitioners (ISOPP), the **Journal of Oncology Pharmacy Practice** contains regular updates on ISOPP activities, as well as practical issues relating to oncology pharmacy and worker safety.

Contents include:

- Comprehensive and critical reviews of drug use in cancer patient care
- Institutional policies on medication use, with outcome indicators
- Reports of innovative services, policies, and outcome measure tools
- Brief comments on articles published in the journal or other information of interest
- Opinions about controversial therapeutic areas and comments about practice-related issues
- An indispensable pharmaceutical journal to assist your practice.

Journal of Oncology Pharmacy Practice is one of the 140+ journals we publish in Science, Technology and Medicine. Visit our new dedicated STM web page which features:

- Free articles
- Recent press releases
- Monthly STM conference schedules
- Sign up for TOC alerts and you could win an iPod nano each month.
